Dear Danny,

Just a few lines to let you know how I'm getting on after coming to see you in March at the Inveness Court Hotel in London.

I can't begin to tell you how much better I am. I had a condition called a narrowing disk space in the lower part of my back. I was crippled with the pain - the pain

was constant, I couldn't sit, stand and only walk small steps.

It has been almost seven months ago when I saw you and my life has changed for the better. The pain has gone completely and I can now lead a normal life. I go swimming three times a week to help strengthen my back.

I am writing these few thoughts out of gratitude for the healing I have received. During the years I enjoyed good health I did not value it, until I lost it. There are no words that can truly express how grateful I'm to you and God - you have changed my life forever. I can only say thank you so much and God Bless.

Kind Regards

Nichola Forde
